

**NOW AN AUTHORIZED DISTRIBUTOR FOR**

**sonnax® POWER TRAIN SAVERS®**

**Stop axle, differential and driveshaft damage with lifetime drivetrain over-torque protection!**

Power Train Savers® are patented drivetrain protection devices which mount into an existing driveshaft. Once installed, these unique devices protect the drivetrain from over-torque damage that can ruin differentials, gears, axles and driveshafts.

**Learn More on how Power Train Savers can help you:**

- Prevent damage to gears and driveshafts
- Avoid costly repairs to drivetrain components
- Eliminate roadside and repair shop downtime

**AVAILABLE IN 3 CONFIGURATIONS**

**Heavy Duty Series ●**

- Torque Capacity 5,500 – 25,500 ft-lb
- Fits 3-1/2", 4", 4-1/2" and 5" driveshafts
- Typically used on multi-axle, Class 6, 7 and 8 trucks

**Medium Duty Series ●**

- Torque Capacity 2,000 – 8,500 ft-lb
- Fits 3", 3-1/2" and 4" driveshafts.
- Typically used on single axle, light- and medium-duty trucks.

**Light Duty Series ●**

- Torque Capacity 1,500 – 4,500 ft-lb
- Fits 2" and 2-1/2" driveshafts.
- Typically used for industrial or agricultural purposes and recreational vehicle applications

**Light Duty**

**Medium Duty**

**Heavy Duty**
